

- IHCS exists with the sole intent of providing the highest quality in-home care services, that improve and enhance the daily living for our patients; administered by experienced professionals who place each patient first.
- Our purpose and integrated approach to care allows patients and their loved ones to spend increased quality time together.

IHCS' VALUE-BASED MODEL

- IHCS offers a leading, value-based and integrated care model enabling health plans to address today's quality and cost challenges in post-acute care.
- IHCS serves as the single source provider, efficiently and effectively delivering enhanced patient outcomes through our highly experienced health care professionals and our integrated approach to delivering post-acute home care services.
- Managed Care Organizations, hospitals, and assisted living facilities count on IHCS to manage same day discharges, thereby preventing unnecessary hospital admissions, emergency room utilization and reducing the overall cost of care.
