

About Pear Therapeutics

Pear Therapeutics is the leader in prescription digital therapeutics, or PDTs. Pear aims to redefine medicine by discovering, developing, and delivering clinically validated software-based therapeutics to provide better outcomes for patients, smarter engagement and tracking tools for clinicians, and cost-effective solutions for payers. Pear has a pipeline of products and product candidates across therapeutic areas, including the first three PDTs with disease treatment claims from FDA. Pear's lead product, reSET®, for the treatment of substance use disorder, was the first PDT to receive marketing authorization from FDA to treat disease. Pear's second product, reSET-O®, for the treatment of opioid use disorder, was the first PDT to receive Breakthrough Designation. Pear's third product, Somryst® for the treatment of chronic insomnia, was the first PDT submitted through FDA's traditional 510(k) pathway while simultaneously reviewed through FDA's Software Precertification Pilot Program.
