

CMS-0057 in Action:

Strategies for Effective Interoperability & Maximum Impact

August 14 at 12:00 PM EST

In the 6 months since CMS-0057 was announced, payers across the US have been actively planning, prioritizing, and taking action to meet the new regulations. Some organizations are going beyond compliance – taking advantage of interoperability and combined clinical and claims data in areas like risk adjustment, quality improvement, care coordination, and member experience.

Join 1upHealth's Bobby Fredrickson, Andrea Kowalski, and Leslie Barthel on **Wednesday, August 14th from 12:00-12:45 pm EST** for a live webinar that will cover:

- Taking a phased implementation approach
- Using data for operational, financial, and competitive gains beyond compliance
- Leveraging technology for efficiency, scalability, flexibility, and data quality
- Walking through 1upHealth solutions and value drivers

All registrants will receive a recording of the webinar along with on-demand product demos for 1up Patient Access, Payer-to-Payer Data Exchange, Provider Access, and Prior Authorization.
