

UnitedHealthcare Support for Healthy Start G.R.O.W. Doula Training

UnitedHealthcare is partnering with the Healthy Start Central Florida, and Indian River County Healthy Start and to provide funding for the G.R.O.W. Doula training participants.

UnitedHealthcare recognizes the value of investing in programs that expand the availability of Doula care for community members during pregnancy and after birth. The Healthy Start Doula Program, using the G.R.O.W. Doula model, improves local maternal and child health systems of care.

The goal of the Healthy Start Doula program is to increase community health literacy and improve outcomes among participating families by addressing factors that contribute to fetal death, infant and maternal mortality and morbidity. The program acknowledges that all families should have access to Doula care.

The Healthy Start Doula program provides continuous physical, emotional and informational support to a mother before, during and shortly after childbirth, to help her achieve the healthiest, most satisfying experience possible.

UnitedHealthcare is committed to being there for what matters, and healthy outcomes for our babies and mothers in Florida is what matters!
