

Simply Healthcare Hosts “Cupcakes & Conversations” in to Support Women’s Health and HIV Awareness

In recognition of National Women and Girls HIV Awareness Day, Simply Healthcare Plans partnered with She’s So Me, Inc. and Silver Oaks Apartments to host “Cupcakes & Conversations” in Tampa on March 6.

The event brought together women and their children for a supportive discussion on maternal and child health, HIV awareness, and domestic violence. Designed as a safe space for open dialogue, the gathering also connected attendees to local resources and support services.

Simply Healthcare Community Relations Representative Rose Pinero volunteered at the event, offering one-on-one guidance and helping connect participants to community-based care and resources.

Events like “Cupcakes & Conversations” reflect Simply Healthcare’s focus on meeting people where they are—creating supportive environments that encourage education, connection, and access to care for women and families.
