

Simply Healthcare Hosts Business Workshop to Support Local Entrepreneurs in South Florida

Simply Healthcare Plans partnered with Prospera to host a Business Orientation Workshop on March 24 at its Community Resource Center in Hialeah, providing local residents with tools and guidance to support entrepreneurial success.

The workshop gave participants an overview of how to start and structure a business, covering key topics such as business planning, marketing strategies, and access to funding opportunities. Prospera also highlighted the resources it offers to entrepreneurs at various stages, helping them grow and strengthen their businesses.

Through initiatives like this, Simply Healthcare supports workforce development and economic stability—key factors that influence overall health and well-being.

By connecting individuals to practical tools and trusted partners, Simply Healthcare continues to help build stronger, more resilient communities across South Florida.
