

Why I volunteer?

The primary reason I like to volunteer is also the primary reason I work at UHC in the LTC Case Management program: I get to directly help others with needs. I enjoy interacting with people in the community and they get to see positive actions from those that work for our company. I also like interacting with other volunteers whether that be community members, other agencies/companies, or even other staff from UHC I would otherwise not get to meet. This provides opportunities for connection.”
