

Strengthening Community Across Central Florida, Humana Healthy Horizons in Florida

On June 18, 2026, Humana Healthy Horizons in Florida hosted a Community Advisory Coalition meeting at the Children's Safety Village of Central Florida in Orlando. The gathering brought together community leaders and organizations dedicated to improving the health and well-being of children, families, and vulnerable populations throughout the region.

Representatives from the Healthy Start Coalition, Boys & Girls Clubs of Central Florida, Children's Safety Village, Florida Department of Health, Florida Department of Children and Families, Steps Inc. Foundation, and Humana Healthy Horizons participated in the collaborative discussion. Together, attendees explored opportunities to strengthen community partnerships, share resources, and identify innovative approaches to supporting Medicaid members and their families.

The meeting featured an overview of Humana Healthy Horizons in Florida and its continued commitment to addressing social needs that can influence health outcomes. Participants discussed how collaboration across healthcare, government, and community-based organizations can help expand access to resources and better support individuals facing barriers to care.

A key takeaway from the discussion was the shared understanding that no single organization can meet every community need alone. By working together, partners can create stronger referral networks, improve access to services, and advance whole-person health for the communities they serve.

The Community Advisory Coalition serves as an important forum for relationship building, knowledge sharing, and collective problem solving. Through ongoing engagement with community partners, Humana Healthy Horizons remains committed to fostering trust, encouraging innovation, and developing sustainable solutions that support healthier communities across Central Florida.
