

Simply Healthcare Foundation and Camillus House Demonstrate Impact of Recovery-Focused Homelessness Initiative

Miami, FL – March 24, 2026 — Simply Healthcare Foundation, in collaboration with Simply Healthcare Plans and Camillus House, is highlighting results from a multi-year investment to expand residential treatment and recovery services for individuals experiencing homelessness in Miami-Dade County.

The initiative supports Camillus House's Institute of Success and Personal Achievement (ISPA) Residential Treatment Program, which provides coordinated medical, behavioral health, and social services for individuals recovering after hospital discharge without stable housing.

Program outcomes underscore the value of integrated, community-based care:

- Approximately 75% of participants successfully complete the program
- Nearly 40% achieve stable, permanent housing
- Participants show reduced reliance on avoidable emergency room visits and hospital readmissions

Many individuals also secure employment or disability benefits, supporting longer-term stability and independence.

This partnership reflects a shared commitment to improving health outcomes for vulnerable populations while supporting more effective use of health care resources across Florida.
